

Sun-Tek Classic Series and Sun-Tek Tube

The Classic Series

The Fixed Glass Classic

Our most popular model, the FGC is the choice for a sleek, extra low profile skylight that blends beautifully with any roofline. Select FGC for use on composition or asphalt shingle roofs only.

Curb Mount Glass

Select Curb Mount Glass suitable for use on any type roof, including metal. The Curb Mount Glass incorporates its own leak-proof cap, to "cap-off" your raised or "curb" roof opening.

The Fixed High Profile

Choose the Fixed High Profile when you prefer a traditional 3 1/2" high mounting curb. This model is an excellent choice for shake shingle roofs.

Vented Glass Classic

Choose the Vented Glass Classic that opens to the great outdoors to allow in fresh air. This model is designed to be used on asphalt or composition shingle roofs.

Tile Glass

Or select Tile Glass, a skylight specially designed for use on metal or barrel tile roofs, but suitable for any roofing surface.

Why the Sun-Tek Tube is extraordinary...

Bring sunlight into a space where it has never before been possible! The remarkable new Sun-Tek Tube from the skylight experts at Sun-Tek now lets you light up even tiny spaces too small for a standard skylight!

- Laundry Room • Stairwell • Bathroom • Hallway • Kitchen • Walk-in-Closet

The Sun-Tek Tube gathers sunlight from a leak proof dome, bounces it down a light reflective tube to a lens cover that diffuses the sunlight throughout the room.

Once you have installed the Sun-Tek Tube you'll never have to do another thing to enjoy the cheerful glow of reflected sunlight - it's maintenance free.
